

## Hours of Service Training

The new federal *Commercial Vehicle Drivers Hours of Service Regulations* came into effect January 1, 2007. Commercial vehicles registered for more than 4,500 kilograms or designed for carrying 11 or more persons including the driver, must comply with this new legislation. Alberta Transportation has developed this Notice to assist you in achieving compliance to these new legislative requirements. The following is a list of organizations in Alberta that have informed the department that they offer an Hours of Service training course.

**This listing is NOT an endorsement by Alberta Transportation of the training or of the training provider. It is only intended as a guide to assist industry with achieving compliance and protecting the safety of the public and the carrier's employees.**
