

*USE IN BRIDGE TENDERS
SPECIFYING BEARING PILES
TO BE USED IN CONJUNCTION
WITH THE ATTACHED SPECIAL
PROVISION AS REQUIRED*

0.1 AMENDMENT TO SECTION 3, BEARING PILES, OF THE SPECIFICATIONS FOR BRIDGE CONSTRUCTION, RE: MEASUREMENT AND PAYMENT

The content of the section titled “Pile Splicing” is replaced in its entirety with the following:

In cases where piles penetrate in excess of 20% from the designed tip elevation, pile splices will be paid for at the unit price shown in the Special Provisions. This payment will be full compensation for all labour, materials, equipment, tools and incidentals necessary to complete each splice.

Only one splice will be paid for each additional twelve metre length of pile or portion thereof. Excess splices will not be paid for.

Use the following Special Provision in conjunction with the above Specification Amendment, Payment Rate for Pile Splicing for each Pile Type to be determined by Project Sponsor/Consultant. Generally, the Rates will fall within the following ranges:

- H-Piles: \$700 - \$750
- Pipe Piles: \$850 - \$950

0.2 PAYMENT FOR PILE SPLICING

The Contractor is advised that where piles penetrate in excess of 20% from the designed tip elevation, the Department will make payment for pile splicing at the rate of \$ XXX per splice in accordance with Section 3, Bearing Piles, of the Specifications for Bridge Construction.
