Note:

- 1) The above amounts represent the currently proposed grant allocation to each municipality under this program for the this calendar year.
- 2) Funding is provided as a percentage of eligible approved project costs. For communities over 1,000 population (to a max. of 45,000) grant percentages are calculated by a formula. The percentage ratio declines as the population increases.
- 3) While every effort is made to ensure that this information is correct, the amounts shown are for general information only and may or may not coincide with the actual grant payment(s) to the municipality.
- 4) The grant amounts are subject to verification by the Provincial Auditor General.
