In October 2016, we advised that commercial decals would be available for purchase through eFacility; however, there has been a delay with the transition of this service. Until March 31, 2017, all commercial decals must be purchased from Transtrue Vehicle Safety.

## Carbon Copy Inspection Certificates

Since 2014, all inspection facilities have been required to complete inspections using Alberta Transportation's eFacility system. However, there are a number of inspection facilities that still have carbon copy inspection certificates in their possession.

As of **March 1, 2017**, inspection facilities will no longer be able to issue carbon copy inspection certificates. All outstanding carbon copy certificates will be cancelled and blank certificates should be destroyed.

**NOTE** – Alberta's Vehicle Inspection Regulation still requires inspection facilities to maintain inspection records (request for inspection forms, issued certificates and completed record of inspection documents) for 5 years.

If your inspection facility does not have eFacility access or needs to add additional users, please have the facility contact complete the [eFacility User Access Form](#) by clicking [here](#). The completed form can be emailed to [trans.efacility@gov.ab.ca](mailto:trans.efacility@gov.ab.ca).

More information on the Vehicle Inspection Program can be found on our website at [www.transportation.alberta.ca/vipinfo](http://www.transportation.alberta.ca/vipinfo).
