Introduction

Operating a small vehicle is a high risk activity. These vehicles are lighter, less stable, and more vulnerable in a crash than other vehicles on the road. New riders are at the greatest risk of having a collision because they are unfamiliar with the controls and handling characteristics of small vehicles.

Even if you are an experienced automobile driver, when learning to ride a small vehicle, be aware that you are once again a beginner. Always ride with a safe attitude. Try to anticipate and avoid dangerous situations by riding safely. Being involved in a crash can mean a loss of income, health and possibly a life.

This handbook is a good source in understanding the rules and regulations applying to small vehicles. For other driver handbooks and to understand more about road safety and low risk driving pick up a Basic, Motorcycle and/or Professional Driver’s Handbook at an Alberta Registry Agent office or on http://www.transportation.alberta.ca/DriversVehicles.htm

Although efforts have been made to reflect the current state of the legislation and regulations at the time of its original publishing, this publication has no legislative sanction and is not intended to take the place of the Traffic Safety Act and Regulations or other legislation from which in part it is derived. The user is encouraged to refer to the source legislation at: http://www.transportation.alberta.ca/525.htm for purposes of interpreting and applying the law. Any reliance on the information contained herein is done so at the reader’s sole risk.

A message from Alberta Transportation

October 2017
Common Definitions

Important common definitions that may apply to more than one of the vehicles listed in this guide:

1. Cycle – “cycle” means a bicycle, power bicycle, motorcycle or moped. *(Traffic Safety Act, Section 1)*

2. Motorcycle – “motorcycle” means a motor vehicle, other than a moped, that is mounted on 2 or 3 wheels and includes those motor vehicles known in the automotive trade as motorcycles and scooters. *(Traffic Safety Act, Section 1)*

3. Motor vehicle – “motor vehicle” means (i) a vehicle propelled by any power other than muscular power, or (ii) a moped, but does not include a bicycle, power bicycle, an aircraft, an implement of husbandry or a motor vehicle that runs only on rails. *(Traffic Safety Act, Section 1)*

4. Vehicle – “vehicle”, other than in Part 6, means a device in, on or by which a person or thing may be transported or drawn on a highway and includes a combination of vehicles but does not include a mobility aid. *(Traffic Safety Act, Section 1)*

5. Highway – “highway” means any thoroughfare, street, road, trail, avenue, parkway, driveway, viaduct, lane, alley, square, bridge, causeway, trestleway or other place or any part of any of them, whether publicly or privately owned, that the public is ordinarily entitled or permitted to use for the passage or parking of vehicles and includes:

   i. A sidewalk, including a boulevard adjacent to the sidewalk
   ii. If a ditch lies adjacent to and parallel with the roadway, the ditch, and
   iii. If a highway right of way is contained between fences or between a fence and one side of the roadway, all the land between the fences, or all the land between the fence and the edge of the roadway as the case may be, but does not include a place declared by regulation not to be a highway. *(Traffic Safety Act, Section 1)*

It is prohibited to operate these vehicles on roadways or sidewalks.
Motorcycle Helmets

Motorcycle helmets are worn by riders of:
1. Power Bicycles (A rider may also wear an approved bicycle helmet)
2. Mopeds
3. Motorcycles
4. Most Off-Highway Vehicles

Approved Helmet Standards: Motorcycle Helmets must have the mark or label stating it meets one of the following standards: CSA, DOT (Standard 218), BSI, the applicable Snell Memorial Foundation standard, or the ECE.

The following are adopted and apply to safety helmets in accordance with subsection (1):
   a) CSA Standard CAN3-D230-M85;
   b) DOT Standard 218 under part 571.218 of the code of Federal Regulations (United States), Title 49;
   c) British Standards Institute Standard BS 6658 – 1985;
   d) Snell Memorial Foundation Standard M2000;
   e) Snell Memorial Foundation Standard M2005;
   f) Snell Memorial Foundation 2010 Standard For Protective Headgear;
   g) United Nations Economic Commission for Europe Regulation 22-05.

No person shall buy, sell or offer for sale a safety helmet intended for the use of operators or passengers of cycles, and off-highway vehicles, unless it complies with the standard.

To ensure your personal safety, maintain your helmet in good condition and replace it in accordance with its manufacturer’s recommendations.

Note: New helmets are not being manufactured and certified to the CSA, BSI, and older Snell Memorial Foundation Standards. These standards are included as some older helmets may still be in use on Alberta’s roadways.
Power Bicycles

Definition according to: USE OF HIGHWAY AND RULES OF THE ROAD REGULATION

1(1)(o) “power bicycle” means a vehicle that is a power-assisted bicycle under the Motor Vehicle Safety Regulations (Canada) (C.R.C., c. 1038);

Motor Vehicle Safety Regulations (Canada) (C.R.C., c. 1038):
Interpretation 2.(1)
"power-assisted bicycle" means a vehicle that:
(a) has steering handlebars and is equipped with pedals,
(b) is designed to travel on not more than three wheels in contact with the ground,
(c) is capable of being propelled by muscular power,
(d) has one or more electric motors that have, singly or in combination, the following characteristics:
   (i) it has a total continuous power output rating, measured at the shaft of each motor, of 500 W or less,
   (ii) if it is engaged by the use of muscular power, power assistance immediately ceases when the muscular power ceases,
   (iii) if it is engaged by the use of an accelerator controller, power assistance immediately ceases when the brakes are applied, and
   (iv) it is incapable of providing further assistance when the bicycle attains a speed of 32 km/h on level ground,
(e) bears a label that is permanently affixed by the manufacturer and appears in a conspicuous location stating, in both official languages, that the vehicle is a power-assisted bicycle as defined in this subsection, and
(f) has one of the following safety features,
   (i) an enabling mechanism to turn the electric motor on and off that is separate from the accelerator controller and fitted in such a manner that it is operable by the driver, or
   (ii) a mechanism that prevents the motor from being engaged before the bicycle attains a speed of 3 km/h;
Operator’s licence: You are not required to hold an operators licence when operating a power bicycle. *(Traffic Safety Act, Section 51(a) states licence required for ‘motor vehicles’. Definition of motor vehicle in *Traffic Safety Act, Section 1*, excludes power bicycles.)*

Minimum driving age: The minimum driving age to operate a power bicycle is 12 years. You must also have written consent from a parent or legal guardian. *(Operator Licensing and Vehicle Control Regulation. Parental consent in form approved by Registrar or holds a valid licence, Section 9)*

Registration: You are not required to obtain registration on power bicycles. *(Traffic Safety Act, Section 52 (1)(a) states registration required for ‘motor vehicle’. Definition of motor vehicle excludes power bicycles.)*

Insurance: You are not required to obtain insurance for power bicycles. *(Traffic Safety Act, Section 54(1)(a) states insurance required for ‘motor vehicle’. Definition of motor vehicle excludes power bicycles.)*

Special laws:

a) You must ride as far to the right side of a highway as practicable to the curb or edge of the roadway unless making a left hand turn. When riding on a one way street in an urban area you may operate as near as practicable to either curb or edge of the roadway. *(Use of Highway and Rules of the Road Regulation, Section 77.)*

b) If you are under the age of 16 years, you are prohibited from carrying any passengers on a power bicycle.

Equipment: You must be equipped with the following gear when riding a power bicycle: headlamp, tail lamp, brake lamp, reflectors, brakes, a horn, and mirror. *(Vehicle Equipment Regulation, Sections: 10, 13, 18, 19, 50, 54, 60, and 110.)*
Mopeds

Definition according to: USE OF HIGHWAY AND RULES OF THE ROAD REGULATION
1(1)(i) “moped” means a vehicle that
   (i) is propelled by an electric motor or an engine that has a displacement of not more
       than 50 cubic centimetres, and
   (ii) is a limited-speed motorcycle under the Motor Vehicle Safety Regulations (Canada)
       (C.R.C., c. 1038);

Motor Vehicle Safety Regulations (Canada) (C.R.C., c. 1038):
Interpretation 2.(1)
"limited-speed motorcycle" means a motorcycle that
(a) has steering handlebars that are completely constrained from rotating in relation to
    the axle of only one wheel in contact with the ground,
(b) has a maximum speed of 70 km/h or less,
(c) has a minimum seat height, when the vehicle is unladen, of 650 mm, and
(d) does not have a structure partially or fully enclosing the driver and passenger, other
    than that part of the vehicle forward of the driver’s torso and the seat backrest.

NOTE: Some vehicles may appear to be “mopeds”, however, if they exceed the engine size
of 50 cc, or have a top speed of more than 70 km/h, then they do not fall into the moped
classification and are, instead, considered motorcycles.
Operator’s licence: The minimum requirement for operating a moped is a Class 7 licence. *(Traffic Safety Act, Section 51(a) states licence required for ‘motor vehicles’. Motor vehicle definition above includes mopeds.)*

Minimum driving age: The minimum age for operating a moped is 14 years. *(Operator Licensing and Vehicle Control Regulation, Section 28(2) states the age for issuing of a Learner’s Licence. Section 32(2)(a) states that Class 7 learner’s licence is not considered a learner’s licence when operating a moped – supervision is not required.)*

Registration: You are required to obtain registration before you operate a moped. *(Traffic Safety Act, Section 52(1)(a) states registration required for ‘motor vehicles’. Motor vehicle definition includes mopeds.)*

Insurance: You must obtain insurance before operating a moped. *(Traffic Safety Act, Section 54(1)(a) states insurance required for ‘motor vehicle’. Motor vehicle definition includes mopeds.)*

Helmet: You must wear an approved motorcycle helmet when operating a moped. *(Vehicle Equipment Regulation, Section 93)*

Special laws:

a) You must ride as far to the right side of a highway as practicable to the curb or edge of the roadway unless making a left hand turn. When riding on a one-way road in an urban area you may operate as near as practicable to either curb or edge of the roadway. *(Use of Highway and Rules of the Road Regulation, Section 77.)*

b) If you are under the age of 16 years, you are prohibited from carrying any passengers on a moped. *(Use of Highway and Rules of the Road Regulation, Section 76.)*

Equipment: Your moped must be equipped with: headlamp, tail lamp, brake lamp, reflectors, brakes, horn, muffler, and mirror. *(Vehicle Equipment Regulation, Sections: 10, 13, 18, 19, 50, 54, 60, 61, and 110.)*
Motorcycles

Definition according to: TRAFFIC SAFETY ACT

1(w): “motorcycle” means a motor vehicle, other than a moped that is mounted on 2 or 3 wheels and includes those motor vehicles known in the automotive trade as motorcycles and scooters.

Operator’s licence: You are required to have a Class 6 licence in order to operate a motorcycle.
(Operator Licensing and Vehicle Control Regulation, Section 26.)

Minimum driving age: You must be 16 years of age in order to operate a motorcycle.
(Operator Licensing and Vehicle Control Regulation, Section 26) Applies to either learner or operator. (Operator Licensing and Vehicle Control Regulation, Section 28 – must be minimum 16 years for operating motorcycle with Class 7.)

Learning to operate: You must be 16 years of age before you begin to learn how to operate a motorcycle. A learner must hold a Class 7, 5, 4, 3, 2, or 1 licence.
(Operator Licensing and Vehicle Control Regulation, Section 29(4).) Learner must be supervised by someone 18 years or older (Operator Licensing and Vehicle Control Regulation, Section 29(3)), who holds a Class 6 licence that is not a Graduated Driver Licence (GDL). Supervisor must either be on the bike.
with the learner or in or on another motor vehicle in close proximity. (*Traffic Safety Act, Section 51(f), (f.1) & (f.2).*) If learner has a Class 7 learner’s licence, then learner may not operate a motorcycle during night time which is defined as one hour after sunset to one hour before next sunrise (Operator Licensing and Vehicle Control Regulation, Section 32(6)).

**Registration:** You are required to obtain registration before you operate a motorcycle. (*Traffic Safety Act, Section 52(1)(a) states registration required for ‘motor vehicles’.*)

**Insurance:** All motorcycles must be insured before they are operated. (*Traffic Safety Act, Section 54(1)(a) states insurance required for ‘motor vehicles’.*)

**Helmet:** You must wear an approved motorcycle helmet when operating a motorcycle. (*Vehicle Equipment Regulation, Section 108*. Standards are also covered in this section. )

**Special laws:**

a) You may only carry as many passengers as the motorcycle is designed for.  
(Use of Highway and Rules of the Road Regulation, Section 77.)

b) Passengers must ride on the seat designed for passengers and use the foot rests.  
(Use of Highway and Rules of the Road Regulation, Section 77.)

c) Not permitted to ride beside another cycle in the same lane except when passing.

d) Shall not operate the cycle adjacent to another cycle travelling in the same direction.  
(Use of Highway and Rules of the Road Regulation, Section 78)

**Equipment:** You must meet the requirements of the Vehicle Equipment Regulation.
Mobility Aids
(electric scooters/wheelchair)

**Definition According to: Traffic Safety Act**

1(v): “Mobility aid” means a device used to facilitate the transport, in a normal seated orientation, of a person with a physical disability.

1(gg): “pedestrian” means
   i) a person on foot, or
   ii) a person in or on a mobility aid

1(ww): “vehicle”, other than in Part 6, means a device in, on or by which a person or thing may be transported or drawn on a highway and includes a combination of vehicles but does not include a mobility aid.
Operator’s Licence: You are not required to hold a licence in order to operate a mobility aid.

Minimum driving age: There is no minimum age requirement. Anyone is able to operate a mobility aid.

Registration: You are not required to obtain registration for mobility aids.

Insurance: Insurance is not a requirement for mobility aid users.

Helmet: You are not required to wear a helmet when operating a mobility aid. However, it is recommended especially when operating on uneven surfaces. (Vehicle Equipment Regulation, Section 112.)

Special laws: A mobility aid user is by definition considered a pedestrian. All rules that apply to pedestrians also apply to individuals operating a mobility aid. (Traffic Safety Act, Section 1, definition of “pedestrian”)

Equipment: No special equipment is required to operate a mobility aid.
Off-highway Vehicles
(ATV, snowmobile, trail bike)

Definition according to: TRAFFIC SAFETY ACT

117(a): “off-highway vehicle” means any motorized mode of transportation built for cross-country travel on land, water, snow, ice or marsh or swamp land or on other natural terrain and, without limiting the generality of the foregoing, includes, when specifically designed for such travel,

a) 4-wheel drive vehicles
b) low pressure tire vehicles
c) motorcycles and related 2-wheel vehicles
d) amphibious vehicles
e) all-terrain vehicles
f) miniature motor vehicles
g) snow vehicles
h) minibikes, and
i) any other means of transportation that is propelled by any power other than muscular or wind (but does not include motor boats)

Note: For definition and restrictions that apply to miniature vehicles and minibikes, see the prohibited miniature vehicles section.
Prohibited Operation: An off-highway vehicle may not be operated on any highway, road or ditch unless permission has been expressly granted. In the case of a provincial highway, the Minister may by “order” or “permit” authorize such vehicles along any portion of a highway (Traffic Safety Act, Section 120(4)(a)(i) & (ii)). In the case of a municipality, the council of a municipality may, through bylaw, authorize such vehicles along any portion of a highway (Traffic Safety Act, Section 120(4)(b)).

Note: Definition of “highway” includes the ditches alongside the roadway.

Crossing a highway: An off-highway vehicle may be driven across a highway, including the roadway, parking lane or sidewalk portion of the highway, if the following occurs:

- The driver must stop the off-highway vehicle before crossing.
- All passengers must be off the off-highway vehicle and any vehicle or thing attached to it before the driver starts to cross the highway.
- The driver must yield the right of way to all other vehicles and persons on the highway.
- The driver must drive the most direct and shortest route of travel available.
- A licence is not required to cross a highway.

Operator’s Licence:

On private land: You are not required to have an operators licence when on private land. (Does not meet definition of “highway” and in Traffic Safety Act, Section 119(2) does not require registration or insurance in these cases.)

Off-highway operation: You are not required to have an operator’s licence when operating off-highway.

(Traffic Safety Act, Section 51(a) states that you shall not “...drive a motor vehicle on a highway unless that person is the holder of a subsisting operator’s licence.” Since these are “off-highway” vehicles, this requirement does not apply.)

On-highway operation: You are required to have an operator’s licence when operating on-highway.

(Traffic Safety Act, Section 120(2)(b) & (4) allow operation on a highway if authorized by minister or municipality. Operator Licensing and Vehicle Control Regulation, Section 26(1) allows a Class 6 licence to be used for this. Section 32(2) allows Class 7 to be used this way. Any class of licence may be used from 1 through 7.) No licence required if just crossing a highway.

Minimum driving age: The minimum age for operating off-highway vehicles on public land or highways is 14 years where permitted. If you are younger than 14 years, you may operate on public land with supervision by someone 18 years of age or older who is either on the same off-highway vehicle or in close proximity.

(Off-Highway Vehicle Regulation, Section 2.) If operating on private property, no age restriction applies.
Alberta Transportation recommends compliance with a manufacturer’s recommendations and warnings, especially in accordance with minimum age, and seating capacity. If the manufacturer recommends no passengers for a vehicle, or designed the vehicle to have no passengers, then Alberta Transportation strongly recommends you not carry any passengers. Also, passengers should only be carried if they can properly use the passenger hand rails and footrests.

The ATV Safety Alert of the Canadian and Alberta Safety Council’s ATV Rider Courses state: "Never carry a passenger on a single-rider ATV. Carrying a passenger may upset the balance of the ATV and may cause it to go out of control". The Alberta Center for Injury Control and Research started an ATV working group and this group cautions against a passenger less than 12 years old or anyone who can't reach the hand rails or footrests.

- Many young children lack the appropriate motor skills and ability to maneuver an off highway vehicle (OHV) such as an OHV, particularly when operating an adult size OHV.
- Each year, many children and youth are seriously injured or even killed while riding an OHV.
- In Canada, nearly 25% of OHV related deaths are among children under 15 years old.
- More than one third of serious injuries from OHV crashes are among children under 15 years old.

**Registration:** Off-highway vehicles must be registered before they are allowed on Alberta’s roads. This applies only to public land and highways. *(Traffic Safety Act, Section 119.) No registration required if on private property.*

**Insurance:** All off-highway vehicles must be insured if you plan to operate them on public land or highways where permitted. *(Traffic Safety Act, Section 119.) No insurance required if on private property.*

**Helmet:** Helmets are required for anyone driving, operating, riding in or on, or being towed by, an OHV on public land. You are not required to wear a helmet when using an OHV:
- on your own property,
- on private property with permission of the owner,
- on First Nations Reserve or Metis Settlement lands, unless they have a law requiring it;
- that has safe, manufacturer installed rollover protective structures and seat belts, which have not been modified and are being properly worn;
- that meets the standards for a motor vehicle designed for use on a roadway, has seat belt assemblies maintained in compliance with the Vehicle Equipment Regulation, and that person is wearing a seat belt (e.g. unmodified 4x4 trucks, sport utility vehicles, and jeeps);
if you are a bona fide member of the Sikh religion who wears a turban;  
during the performance of farming or ranching operations exempt from  
Alberta’s occupational health and safety laws; and  
during the performance of work where Alberta’s occupational health and  
safety laws have exempted OHV helmet use.

**OHV helmet use is recommended for all OHV users, even if they are exempt.**

For more information on helmet exemptions, please see the *Traffic Safety Act sections 128.1 and 129*, and Off-Highway Vehicle Regulation section 9.1.

**Special Laws:** Please check the *Traffic Safety Act* for special laws. (*Traffic Safety Act*, Section 117 to 129 and Off-Highway Vehicle Regulation.)

**Vehicle Equipment:** Off-highway vehicles must be equipped with the following equipment: a headlamp, tail lamp, and a muffler. (Off-Highway Vehicle Regulation, Sections: 5, 6, and 8.)

**Accessing Trails:** Off-highway operators have access to thousands of kilometres of trails in a variety of landscapes. However, not all areas are open to off-highway vehicles. Operators must ensure they are aware of restrictions and guidelines in the areas where they plan to ride.

- Permission must be obtained before riding on private property and most public lands leased for agriculture.
- Off-highway vehicles are generally prohibited from parks, protected areas and natural areas.

**Shared use and respect:** Many areas are shared with other recreational and industrial land users. Off-highway vehicle operators can promote respect and reduce conflict with others with simple practices.

- Yield the trail to non-motorized traffic (such as horses, hikers, cyclists, skiers).
- Keep engine volume and vehicle speed low when near other users.
- Respect soil and vegetation reclamation efforts.
- Pack out all trash and litter.

**Environment:** Off-highway vehicles are capable of causing long-term disturbance to soil, water, vegetation, fish and wildlife. Wet and alpine areas are particularly at risk. Help reduce damage by doing the following.

- Ride on existing trails. Whenever possible, ride when the trails are dry.
- Stay out of streams and wetlands.
- Steer clear of wildlife and sensitive habitats.
- Keep skidding and spinning to a minimum.
- Keep machines clean to reduce weed transfer and prevent overheating which can lead to a fire.
Safety: Mud, water, slick surfaces, and rough terrain increase the chance of a crash. Emergency response time may be longer in remote areas.

- Tell someone where you are going and check in with them on your return.
- Ride within your abilities.
- Ride with others.
- Use safety equipment. Carry emergency tools and supplies.
- Keep your machine in good repair.
- Travel responsibly and share the trail.

For information on responsible recreation on public land, please view Environment and Parks web page at this link:

Prohibited Miniature Vehicles

Prohibited Operation: These vehicles are motor vehicles, as defined in the *Traffic Safety Act*; however, they also meet the definition of “miniature vehicles” which are not permitted on a highway in Alberta, including sidewalks alongside the roadway. While many of these motorized vehicles will be used in a pedestrian-like manner, the operators of these vehicles do not meet the legal definition of “pedestrian”.

Permitted Operation: Miniature vehicles may not be operated on a highway in Alberta; they may only be operated on private property. The definition of “highway” on page 4 of this document includes privately owned places that the public is ordinarily entitled or permitted to use for the passage or parking of vehicles, for example shopping mall parking lots.

In law, these vehicles meet the definition of a motor vehicle; however they do not fit the definitions of mobility aid, motorcycle, or pedestrian.
TRAFFIC SAFETY ACT

Section 1(x): “motor vehicle” means
   (i) a vehicle propelled by any power other than muscular power, or
   (ii) a moped but does not include a bicycle, a power bicycle, an aircraft, an implement of husbandry or a motor vehicle that runs on rails.

Section 1(v): “mobility aid” means a device used to facilitate the transport, in a normal seated orientation, of a person with a physical disability.

Section 1(w): “motorcycle” means a motor vehicle, other than a moped, that is mounted on 2 or 3 wheels and includes those motor vehicles known in the automotive trade as motorcycles and scooters.

Section 1(gg): “pedestrian” means
   (i) a person on foot
   (ii) a person in or on a mobility aid and includes those persons designated by regulation as pedestrians.

Section 52(1): Except as otherwise permitted under this Act, a person shall not operate a motor vehicle or trailer on a highway unless there is a subsisting certificate of registration issued in respect of that vehicle.

Miniature Vehicle definition according to:
OPERATOR LICENSING AND VEHICLE CONTROL REGULATION

59(1) A miniature vehicle must not be registered as a motor vehicle.

(2) In this section, “miniature vehicle” means a go cart, a 3 or 4-wheeled vehicle of less than standard size, a golf cart, a 3 or 4-wheeled vehicle that the registrar considers would present a hazard to other highway users because of its novel size or operating characteristics or a vehicle referred to in subsection (3) or (4).

(3) An off highway vehicle is a miniature vehicle if it has 3 or 4 wheels and is less than standard size.

(4) A motorcycle or moped that has the following is a miniature vehicle:
   (a) a seat height of less than 70 centimetres when there is no load
   (b) a wheel rim diameter less then 25 centimetres
   (c) a wheel base of less than 100 centimetres when measured from the centre of one axle to the centre of the other axle.
