Drivers, including learner's class, are counted individually by age to reflect the total number of drivers licenced in Alberta. Only drivers whose licences are active and are not cancelled or suspended as of March 31 in each reporting year are included in the annual operator statistics. Holders of ID cards (class 8) are not classified as drivers and are not included in these tables.

For ID cardholders (class 8), see the last table in this report.

The age categories may vary between tables due to combining cells with low values that could potentially have led to the identification of the individuals listed in these cells.

(5) Drivers holding a Class 5 licence may drive basic passenger vehicles.

Drivers may qualify to hold a combination of licence classes. Multiple classes of licences are accounted in each class held and the total by licence class exceeds the total number of drivers if counted by age. Any licence that has expired or has been cancelled or suspended is excluded from the fiscal year end count.

The age categories may vary between tables due to combining cells with low values that could potentially have led to the identification of the individuals listed in these cells.
