

Project Update

Start Date: October 2009

Contractor:

Proposed Completion: October 2010

Percent Complete: 0%

Completed Activities

Bridge construction is complete. Stoney Trail is open to traffic with on and off ramps to the north. Aecom has been retained to plan, design and administrate interchange construction upgrades.

Project Status for Winter 2009/10

Planning and preliminary engineering are being submitted by the consultant for review by Alberta Transportation.

Next Steps

Detailed design and tender preparation is underway for the interchange upgrades including grading and pavement structures for the additional ramps, street lighting, signage, retaining walls, barriers, stormwater systems, signals and miscellaneous other infrastructure. Tendering of the upgrades is anticipated for spring 2010.

Construction Information

The original construction of the partial interchange included the future ramps and bridge fills for the expansion of the Shaganappi Trail Interchange. This will allow the interchange to be expanded much quicker in 2010 and in the future when traffic warrants and funding is available.

Stoney Trail and Shaganappi Trail will be a busy construction zone in 2010. Please do not enter as construction activity areas present significant hazards to the public.

For more information on this project please call (403) 270-9203 or email stoney.trail@aecom.com.
