

Project Update

Start Date: July 2010

Contractor:

Proposed Completion: October 2010

Percent Complete: 0%

Completed Activities

Bridge construction is complete. Stoney Trail is open to traffic with on and off ramps to the north. Aecom has been retained to plan, design and administrate interchange construction upgrades.

Planning, preliminary engineering, detailed designs and tender documents have been submitted by the consultant and reviewed by Alberta Transportation

Project Status for Spring 2010

Alberta Transportation has tendered the upgrades to the interchange in May 2010 for contractors to price and bid.

Next Steps

Upon the conclusion of tendering, a contract will be awarded. The contractor will coordinate with its suppliers/subcontractors and prepare its schedule. Traffic accommodation and environmental construction operation plans will also be developed and submitted for approval.

Construction Information

The original construction of the partial interchange included the future ramps and bridge fills for the expansion of the Shaganappi Trail Interchange. This will allow the interchange to be expanded much quicker in 2010 and in the future when traffic warrants and funding is available.

Stoney Trail and Shaganappi Trail will be a busy construction zone in 2010. Please do not enter as construction activity areas present significant hazards to the public.

For more information on this project please call (403) 270-9203 or email stoney.trail@aecom.com.
