

Who?

- Alberta Infrastructure & Transportation
- The City of Calgary, Transportation Planning

What?

- A transportation planning study
- Improvements of the Deerfoot Trail/Glenmore Trail Interchange

Where?

- Deerfoot Trail between Peigan Trail and Southland Drive
- Glenmore Trail between Blackfoot Trail and Heritage Drive

Why?

- Develop functional plans to address existing and future traffic demands and lane requirements
- Improve traffic flow on Deerfoot Trail and Glenmore Trail

How?

- Identify business and community issues
- Analyze current traffic patterns and future traffic projections
- Prepare a strategy plan for improvements to occur in stages
- To identify near-term (Stage 1) improvements to the Deerfoot Trail/Glenmore Trail Interchange

When?

- Oct 2006 Open House to present plans for improvements and obtain public input
- Jan 2007 Completion of functional planning study
- 2008-2010 Construction of new bridge crossing the Bow River
- 2010-2012 Construction of Deerfoot Trail Corridor Stage 1 Improvements (subject to funding approval)
