

Project Update

Start Date: November 1, 2005

Contractor:

AECON Construction – Crowchild Trail Bridges
Slimdor Construction – Interchange Earthworks
South Rock – Interchange Paving and Ramp Bridges

Proposed Completion: Fall 2011

Percent Complete: 70%

Completed Activities

The detour of Crowchild Trail around the bridge site has been operational since December 2005. Traffic will continue to use the Crowchild Trail detour until summer 2010.

The City of Calgary has made plans to extend the Northwest LRT line to Rocky Ridge Road along the median of Crowchild Trail. Additional information about the LRT can be found at [Northwest LRT Extension](#). The province has been coordinating with the city and updating the interchange configuration to be compatible with the LRT extension. The detail design of new ramp bridges, underground storm water utilities, road surfaces, street lighting and signage is complete.

South Rock has completed the northbound to eastbound ramp (Stage 1) and is progressing with bridge construction on the remaining bridges. South Rock has also started street light installation and overhead guide signs.

Project Status for Spring 2010

South Rock is currently working on grading of future ramps and Stoney Trail road structure, streets, storm water infrastructure, bridge construction and exportation of surplus material from site. No changes to traffic will occur until spring 2010.

Next Steps

- *Complete earthworks and start paving on the WB-NB, SB-WB and EB-SB ramps and open to traffic in July 2010 (Stage 2)*
- *Complete construction of the bridges, switch traffic onto the Crowchild Trail ultimate alignment (Stage 3) and remove detour road (anticipated in July-August 2010)*
- *Start construction of Stoney Trail roadway under Crowchild Trail (Stage 4) (summer-fall 2010)*
- *Start construction of the LRT extension (City of Calgary) from Crowfoot Centre to Rocky Ridge Road*

Construction Information

Stoney Trail at Crowchild Trail will be a busy construction zone from now through 2011. Please do not enter as construction activities present significant hazards to the public.
