

# Project Update

---

## **Completed Activities**

An information session was held for the Stoney Trail Expansion Project on June 13, 2005 at the Tuscany Club. Approximately 185 people attended the event, where information regarding the interchange design and construction schedule was presented. As well, a formal question and answer session was held at that time.

Stakeholder meetings have been held with residents who back along the berm at the Scenic Acres Link. Members of the project team will continue to meet with these residents to provide project updates.

## **Project Status for August 2005**

The Crowchild Trail detour is currently being tendered. Construction is expected to begin in September 2005 and be completed in November 2005.

## **Next Steps**

Construction of the Scenic Acres Link interchange will begin in Spring 2006.

Members of the project team will continue to meet with community groups to provide project updates.

## **Construction Information**

The detour at Stoney Trail / Crowchild Trail will have the same number of traffic lanes as the existing intersection, but will operate at lower posted speeds.

The detour is being constructed north of the existing intersection and will be in place to facilitate construction of the bridges. Traffic will be moved back onto the existing alignment in 2006, once the bridge construction is complete.
