

Project Update

Start Date: December 14, 2011

Contractor: Acciona Infrastructure Canada

Proposed Completion: Fall 2014

Percent Complete: 75 %

Completed Activities

AECOM has been retained to plan, design and administrate the interchange construction. Acciona Infrastructure Canada has been awarded the construction contract for the project.

Acciona has completed the Nose Hill Drive bridge pile foundations, the centre piers, the abutments and the lifting of the bridge girders. The southbound Stoney Trail bridge and the adjacent pedestrian bridge are complete.

The pedestrian pathway between the communities of Scenic Acres and Tuscany is open to the public.

Construction of the retaining walls at the north end of the wildlife underpass are complete.

Project Status for Winter 2013/14

Acciona has shut down for the winter months.

Next Steps

In early spring Acciona will be progressing with concrete deck construction of the Nose Hill Drive bridge over Stoney Trail and the resumption of earthworks throughout the interchange. Completion of the retaining wall at the south end of the wildlife underpass, pedestrian underpass under Nose Hill Drive, underground storm system, street lighting and overhead guide signs will also continue in early spring.

Construction of the new southbound Stoney Trail roadway between Nose Hill Drive and the Bow River bridge will follow later in the spring.

Bridge widening construction is anticipated to commence on the existing CPR bridge once the southbound Stoney Trail bridge is open to traffic.

Construction of the permanent pathway in the southwest quadrant connecting the new pedestrian bridge over CPR to the regional pathway system will be a priority.

No traffic detours are anticipated during the winter 2013/14. Additional information on detours for 2014 will be provided under the 'Maps' section of the project web page. The schedule for construction and opening of detours and permanent roadways is subject to inclement weather.
