

SEEDING

Any product that meets the requirements of Alberta Transportation Standard Specification for Highway Construction, Specification 2.20 Seeding qualifies under this section.

GRASS SEED

Grass seed shall meet the requirements of the Seeds Act for Common No. 1 Seed and shall be of the composition specified in the Special Provisions. The seed shall be mixed and tested by a recognized seed house and shall be clearly marked with the name of the supplier and the certified mixture composition.

FERTILIZER

Fertilizer shall be of the composition specified in the Special Provisions.

MULCH

Mulch material shall be cellulose fibre. Mulch shall be clean and free of weeds and other foreign matter.

SOIL AMENDMENT

A soil amendment is any material added to a soil to improve its physical properties, such as water retention, permeability, water infiltration, drainage, aeration and structure. The goal is to provide a better environment for root growth. There can either be organic or inorganic soil amendments.
