RE: Review of Acrylithane 'HI-SLIK' Anti-graffiti Coating System

PRODUCT

Acrylithane HI-SLIK Urethane Enamel Anti-graffiti coating system is manufactured by Jones Blair Industrial Coatings located in Dallas, Texas and is distributed by Image Signs of Edmonton.

VENDOR CLAIMS AND INFORMATION

CLAIMS

Acrylithane HI-SLIK Anti-graffiti is a two component system with low volatile organic components (VOCs). The benefits of using the Acrylithane HI-SLIK product are:

- Very low surface energy (non-stick)
- Low VOC
- Abrasion resistant
- Excellent color and gloss retention
- Resistant to chemical splash/spillage
- Lead and chromate free
- Fast dry

DESCRIPTION

Acrylithane HI-SLIK system is a low VOC specially modified polyurethane coating formulated for use in applications requiring anti-graffiti; non stick and high surface slip characteristics.

POTENTIAL USAGE

Acrylithane HI-SLIK system can be used to ease the removal of graffiti on concrete and steel surfaces.

The only downside to this coating system is that it can't be recoated (even with itself).

STANDARDS

No standards submitted.

ALBERTA TRANSPORTATION COMMENTS

EXPIERENCE

Alberta Transportation has no experience with this product.

APPLICABLE STANDARDS

Alberta Transportation does not have a standard for anti-graffiti products.

RECOMMENDATIONS

This product is recommended to be placed on the Alberta Transportation Products List as a potential product. Final acceptance of this product will be based on field performance.
