

Driver's Knowledge Test Available in Multiple Languages

People seeking to obtain an Alberta Class 7 learner driver's licence can now take the electronic knowledge test in one of 25 languages:

Amharic	German	Somali
Arabic (Modern Standard)	Hindi	Spanish
Chinese (Simplified)	Italian	Tagalog
Chinese (Traditional)	Korean	Thai
Cree	Oromo	Ukrainian
Dutch	Polish	Urdu
English	Portuguese	Vietnamese
Farsi	Punjabi	
French	Russian	

All Class 7 knowledge tests are written at a grade eight level with material taken directly from the Driver's Guide to Operation, Safety and Licensing. The Driver's Guide is available at <http://www.transportation.alberta.ca/531.htm>.

Alberta Transportation provides the Driver's Guide in English, and has allowed many community groups to translate the Guide into other languages. A list of "Retailers for the Driver's Guide in Selected Languages" is available at <http://www.transportation.alberta.ca/531.htm>.

The Class 7 knowledge test is randomly generated by a software program. Clients are required to correctly answer 25 of the 30 questions presented in order to pass the test. Questions may be skipped. Once 25 questions have been answered correctly, the computer will stop the test and the client may not have to answer any skipped questions. There is no time limit on the test.

The electronic tests are available at more than 200 registry agent offices throughout the province. Please contact Service Alberta at <http://www.servicealberta.gov.ab.ca/find-a-registry-agent.cfm>, or 780-427-7013 (toll free in Alberta by first dialing 310-0000), to locate a registry agent office near you and inquire about scheduling and fees.
