PUBLIC OPEN HOUSE
November 20, 2008

CALGARY RING ROAD/EAST FREEWAY
Access Management Plan for 84 Street S.E.

Alberta Transportation, in cooperation with the City of Calgary and the Municipal District of Rocky View, are undertaking an access management study to review future access issues along 84 Street S.E. that will result from the construction of the Calgary Ring Road / East Freeway within the study boundaries of 17 Avenue S.E. (Highway 1A) southward to Marquis of Lorne Trail (Highway 22x).

Alberta Transportation has retained CH2M HILL to lead the project.

An open house is being held to provide the study’s recommendations for 84 Street S.E. access management on the opening day of the East Freeway in the vicinity of 17 Avenue S.E., Peigan Trail, 114 Avenue S.E., and 130 Avenue S.E. and Highway 22X.

Members of the public are invited to review the access management study recommendations and to provide comment on the presented materials.

Representatives of Alberta Transportation and CH2M HILL will be present to answer questions and obtain your comments.

The public open house will take place from 4 p.m. to 8 p.m. on Thursday, November 20, 2008 at the Glenmore Inn, 2720 Glenmore Trail S.E. Calgary, AB
