

Highlights About the Project

Stoney Trail (HWY 22X) and Macleod Trail Interchange

- Addition of a second lane of traffic on Stoney Trail (Highway 22X) in each direction from 6th Street/Sheriff King Street to east of Macleod Trail.
- Design and construction of two new bridge structures to carry the proposed westbound lanes of Stoney Trail (Highway 22X) over Macleod Trail and the CP Rail tracks.
- Existing signals and at-grade intersection conflicts at the interchange will be removed.
- Twinning of Stoney Trail (Highway 22X) to tie into the existing signalized intersection at 6th Street/ Sherriff King Street.
- Will allow for improved traffic movement and capacity once the southeast portion of Stoney Trail connects to this location.
