

Highway 2 / Gaetz Avenue Interchange – Opening of Southbound Collector-Distributor Roadway

November 13, 2018 – Red Deer, AB FOR IMMEDIATE RELEASE

On Wednesday, November 14, 2018, the southbound collector-distributor roadway will be permanently open, providing direct access to southbound Highway 2A and Gasoline Alley West.

A plan showing the permanent alignment is available at Hwy2Gaetz.com.

Also on Wednesday, November 14, crews will begin a staged opening of the southbound Highway 2 bridge and lanes, with full opening anticipated for Thursday, November 15.

These developments represent two of the last major milestones required to have traffic flow freely through the Highway 2/Gaetz Avenue Interchange Improvement project. The final milestone of opening the southbound Gaetz Avenue bridge will likely take place within the next two weeks, weather permitting.

Additional paving work and final clean-up activities will take place in Spring 2019. For detailed project information, please visit Hwy2Gaetz.com.

Flatiron Constructors Canada Ltd., on behalf of Alberta Transportation, would like to thank local residents and road users for their patience.
