**SUBJECT ALBERTA MUNICIPAL INFRASTRUCTURE PROGRAM
ELIGIBILITY OF THE PURCHASE OF AMBULANCES**

Several municipalities have requested that the purchase of an ambulance be included as an eligible project under the Alberta Municipal Infrastructure Program (AMIP). In response to these requests, the AMIP Administrative Procedures, Schedule 1 under Emergency Service Facilities has been amended to include ambulances.

This addition is intended to include the vehicle and the basic on-board equipment necessary to make the vehicle functional as an ambulance. All disposable supplies and equipment as well as other non-essential equipment are considered to be operational items and are therefore specifically excluded.
