*These numbers are for the most comparable program in place at the time. These numbers are for those same programs prior to the legislative changes implemented July 1, 2012. IRS was first implemented on September 1, 2012; therefore, no comparative information is available. Please note, the 24 hour suspension information from September 2012 onwards is not directly comparable with the pre-legislative change numbers as the program changed significantly.

Note: These **preliminary** numbers are based on the data available as of May 29, 2013 and are **subject to change**.
